The triumphant attitude of General Carranza, de facto president of Mexico, asserting that a move by the American troops in any direction but north toward the city called attention to the long line of communication and supplies between Colum-

bua, N. M., and Tampico, Mex. This line is about 100 miles long. It must be guarded, if serious peril to the American forces in Mexico is to be averted. Picture shows officers leading cavalrymen in Mexico in line of march. At their head is Colonel Tate of the Eleventh cavalry.
